Monaco SunReel

Putting Quality And Style Into Your Pool

Pure genius from **Intopool**

The Monaco SunReel

- The Monaco SunReel is a Monaco fixed reel with the same high quality features of the Monaco range of reels
- Anodised aluminum tube, grooved for extra strength
- Fixed stand made from 1¾" stainless steel
- Has a German manufactured electric motor powered by a solar charged battery
- A slim control box made from 316 stainless steel, vented, IP67 rated
- Large solar collector for trickle charging
- Operated by a 3-way key switch
- The whole solar pack can be rotated to get the best solar gain

Reel sizes:

Small: for pools 12' – 15' wide (3.60m – 4.50m)

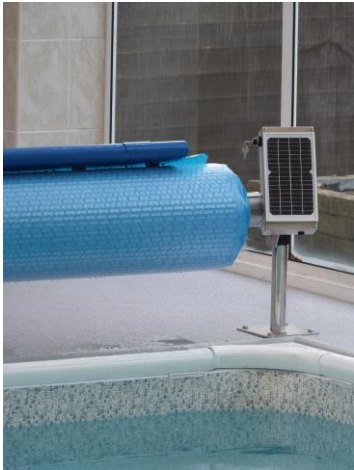

Large: for pools over 15' – 21' wide (4.50+m – 6.40m)

The Monaco SunReel Extra

- The Monaco SunReel Extra comes with the following additions...
- Operated by remote controlled fob. If this is lost or damaged the reel can still be operated using the 3-way key switch
- As the reel is operated by remote control it means the Solar Pack can be sited away from the reel system and linked by cable. Ideal for indoor pools
- The receiver is permanently on standby so if there is not enough sunlight or there has been excessive use of the Monaco SunReel, the supplied IP65 rated battery charger can be used from time to time to fully charge the batteries. There is a 2 pole connection point on the back of the Solar Pack
